

What does B.Tech CSE cost?

2027 planning guide using the published 2026 FET academic rates and 2026–27 Global Campus hostel schedule. The admission offer sets your actual payment dates.

When	Without hostel	With FET triple-sharing hostel
Application	₹600	₹600
At seat confirmation	Amount in the provisional offer	Amount in the provisional offer
First academic year	₹3,55,000	₹5,55,000
Each later year · years 2–4	₹3,25,000	₹5,15,000
Four-year current-rate budget	₹13,30,000	₹21,00,000

How the amount is built

Academic: ₹3,25,000 annual CSE tuition × 4 + ₹30,000 one-time registration = **₹13,30,000**. First year includes the registration; later years use the published annual tuition unchanged.

FET hostel: ₹1,90,000 annual in-campus triple sharing × 4 + ₹10,000 one-time **refundable** caution deposit = **₹7,70,000**. The public room schedule does not split out a separate meal amount. This Kanakapura Road room rate does not price CMS Business School or Jayanagar accommodation.

Other 2026 FET branches

AI and Machine Learning: **₹16,30,000**; Data Science: **₹15,30,000**; Electronics and Communication: **₹12,30,000**; Mechanical: **₹8,90,000**; Civil: **₹8,30,000**. These are four years of listed annual tuition plus ₹30,000 registration once, without accommodation.

Check the exact offer

The ₹600 B.Tech application fee is separate. The FET public schedule does not say how much of year one is due immediately after an offer. A 2027–28 academic or hostel tariff may differ; use the written offer for your actual specialisation, room, instalments and scholarship.
